CATHEDRAL VILLAGE ARTS FESTIVAL!
MAY 23 - 28, 2022

Thanks, Regina!
GREETINGS
from the 2022 CVAF Chair

On behalf of our ever dynamic and devoted 2022 CVAF Planning Committee and our CACA Board, hat’s off to 31 years of support. Our 2022 theme “Thanks Regina” reflects our heartfelt gratitude to our Cathedral Village and surrounding communities. Your assistance, participation, sponsorship and support have allowed us to continue building this unique legacy known widely for melding creativity and inclusivity.

The expression “nothing can dampen the spirit of the Festival”, in addition to referring to the weather, now includes a global health crisis. As a community we continue to pivot, collaborate and re-envision this beloved six-day celebration weaving the arts and community — especially now, when togetherness matters so much. And this year our goal is to offer IN PERSON outdoor and indoor festivities, still with FREE ADMISSION after all these years! Offerings include a parade, a picnic, a street fair, music, literary and theatre events, dance, magic, film and so much more! All crafted and considered while weighing public health and safety realities.

Ultimately, with only half the regular planning season available, our CVAF team decided to commit ourselves 100 per cent to doing everything we could to bring our community together once again. With a green light from our CACA Board, true grit made up for time lost. I salute our Planning Committee Members (many in their very first season of CVAF involvement) and Staff for never giving up.

Neighbourly kindness and mutual respect are cornerstones in the Cathedral Village. Please be mindful of the impact on all of us during uncertain times. Let’s make our 31st season of magical offerings a safe landing for all. THANKS REGINA and thanks to our founder Ken Mitchell. Long Live the CVAF! See you in the Village!

Marilyn Turnley, CVAF Chair

Plains View by Donald List
What happens when a memory is revisited? Did it really happen, or was it just one of those gray pages in a chapter of your life? Do you ever wish you could turn back the clock and relive the better memories? In Plains View, veteran Regina filmmaker Donald List lets you do that by obscuring recent memories and replacing them with imagery of a more pleasant time.

The Devil Knows You’re Dead by Lee Chambers
Lee Chambers has written, produced and directed many films over the years. His debut feature The Pineville Heist (2016) and Copenhagen Road (2019) can both be seen on Amazon Prime. In this drama/thriller, Luke Gomez steals a quarter from a homeless man at a bar and turns the single coin into a casino winning streak, until he makes the cocky move to return the quarter.

As The Maple Falls I Realize I Can’t Stop by Gavin Baird
Since graduating from Recording Arts Institute of Saskatoon in 2016, Métis filmmaker Gavin Baird has focused on narrative filmmaking. In 2017, he started the production company Dynamic Video Imaging with Kyle Zurevinski. His work includes the feature length films The Caring Only Cry at Night and Begonia and the web-series Autumn’s Breeze and Four in a Blanket. In this experimental film, he evokes past memories of forgotten back alley items on Maple Street.

Plume by Mike Rollo
“Fingers pluck fallen evidence of flight; placed and traced to make avian light” is how Mike Rollo describes Plume. Rollo is a founding member of Montreal’s experimental film collective Double Negative and Independent Visions in Regina, and currently teaches film production at University of Regina. His photochemical practice explores alternative approaches to non-fiction cinema with a focus on landscape, rural industry and communication cultures.

aen loo pawatamihk by Diane Ouellette
Dianne Ouellette is a Métis filmmaker, multimedia artist, curator, and educator. For over two decades, she has focused her lens on family, history and identity. This film’s title, she says, is Michif for “Wolf dream” or “I dream of Wolves”, adding “As I walk the land with Wolves and Buffalo, I reflect on my ancestors and honour their memory, while reflecting on the present-day issue of environmental sustainability.”
